CAPTURE THE MEMORIES

Summer is absolutely flying by! School supplies have suddenly started to appear and begin to replace beach toys in the "Seasonal" aisles of the stores. We hope you have all had time for some Rest and Relaxation, maybe have read a good book or had an amazing vacation.

Some of you have probably been starting in on some milestones like getting your young adult ready for their first year of college. All very exciting stuff which just makes the time fly even faster.

It just reminds us how in the rush of everyday life it's easy to let projects we want to do fall by the wayside. So if you still have a few lazy days of summer left, put some thought into capturing those precious memories of summer. You can get creative with many projects:

- **Traditional Summer Vacations** – Is there a place your family has visited for years or for the first time? A book of photos and memories through the years can make a terrific holiday gifts or keepsakes.
- **New Adventures** – We know some of you have been on life-changing trips this summer – school or other group trips, summer semesters abroad. You can make a collage on cork board or mod podge to a TV tray of your adventures.
- **Championship Seasons** – Baseball, softball and swim teams are winding down. Whether it was a national championship season or just a really fun time with friends, there is something worth remembering. Make a shadow box of pictures and memorabilia.

Now get out there and squeeze the last few drops of fun from the Summer of 2016!

Hunt Update Happy Birthday!

The Continental Congress approved the final wording of the Declaration of Independence on July 4, 1776, after working for a couple of days on the draft submitted on July 2nd and finally agreeing on all of the edits and changes.

July 4, 1776, became the date included on the Declaration of Independence and the beautiful handwritten copy that was signed in August, 1776 - now displayed at the National Archives in Washington D.C.

Hunt is proud of our military affiliation – 70,000 homes built for military members and 200,000 military residents.

Maintenance Fireworks Safety

What is the safest firework? IT'S THE ONE YOU DIDN'T LIGHT!
Please remember that fireworks are not allowed in the community and the safest way to enjoy them is at a public display.

Even sparklers are dangerous – they reach 1500 degrees and aren't suitable for children.

Consider providing glow sticks to children to enjoy while watching public fireworks displays – with trained professionals and emergency response personnel on hand.

Please have a safe and happy Fourth of July. We really want to see you safe and happy on the Fifth of July, as well.
