## Summer Days

The smell of the grill. The hiss of the flame. The fun of a backyard barbeque is one of the great joys of summer. While having fun and enjoying the company of friends and neighbors, you still have to be mindful of grilling safety.

Preparing and using an outdoor grill is not a complicated process. Outdoor grills are safe and reliable when used according to manufacturers' instructions; however they may pose a risk when not taken care of during use or they are used for purposes for which they were not intended.

Your Resident Guidelines state:

The use of gas-fired and charcoal barbecue grills inside garages, on decks, balconies, covered parking areas or patios and under any building overhang is strictly prohibited. All grills must be used a minimum of 15 feet from any building structure or combustible source. Fuel bottles (propane) from the gas-fired grills (attached or unattached) may be stored inside the garage. Do not store these bottles inside the structure. All grills may be stored in garages, on porches, decks, balconies and patios, provided the charcoal is completely extinguished or the gas fire is out and the propane is turned off.

### Military Spouse Appreciation Day

A holiday since 1984, the Friday before Mothers' Day is Military Spouse Appreciation Day. While this may get overshadowed by Mothers' Day, consider doing a little something special for those military spouses alone on this day – a call, a card, an invite to happy hour in the driveway while the kids ride bikes. Encourage kids whose military parent is away to do something – make a card, make a book to read to the parent at home, plant a flower in a decorated pot, make anything with a kid's handprint on it.

Lois to Celebrate in May!  
Mothers' Day, Armed Forces Day, Graduations,  
Memorial Day. Enjoy time with your family and  
friends and the unofficial kick off to summer!

## Maintenance

Summer's just around the corner! Here are a few maintenance and safety reminders:

Give your air conditioner a test run to ensure it's operating properly. Don't wait until the first scorching day! Please initiate a maintenance request if needed.

Let Mother Nature cool your home – open windows on cool mornings and evenings, close windows and shades during the heat of the day.

Summer means more outdoor activities – be on the lookout for runners, bike riders and children playing. Don't forget sunscreen and bike helmets! Watch children around water. It only takes a few seconds of inattention and a few inches of water for tragedy to happen.

Ensure grills are attended by an adult when in use. Keep grills away from homes, fences, other structures, overhangs and trees. Have a hose or fire extinguisher within reach.

# MAY
